The enrollment process takes place continuously throughout the school year. For more information, call your neighborhood school. Enrollment Frequently Asked Questions

Who provides transportation for my child to attend a school outside my neighborhood?

Unless a child meets program improvement criteria, parents must provide transportation in order for students to attend a school other than their neighborhood school.

How do I enroll the brother or sister of a child already transferring to a school other than the neighborhood school?

Siblings are not automatically enrolled in a school of choice. Siblings must be enrolled at their neighborhood school prior to requesting a transfer. Applications for transfer must include information for each applicant.

Is licensed childcare available?

Before and/or after-school childcare is often available to parents of students enrolled in school. Care is offered through the South Bay Family YMCA. For more information, visit our website at cvesd.org.

Where can I go to access current and meaningful information about school and district progress?

We encourage parents to visit the California School Dashboard website for the most current information regarding our schools. In some cases, we recommend that they make an appointment with the school administration if they have further questions regarding curriculum and test scores.
